NEWS ABOUT TRUMP - NEW OUTBREAKS - CHINA
Published 17 December 2020 by Pleiadian Knowledge, Cristina & Estella

Estel·la: What is happening in Holland? It seems that it is a new target or something, saying that it is worse in contagions than Spain, or France. It has already started in "partial" confinement and has closed borders.
Anéeka: Yes, and surely they say it justifying themselves because before there were no restrictions as severe as in France or Spain. As we said before, everything obeys agendas and interests, according to what suits those who control this and it does not depend on any real parasite.
But why exactly I have no precise information. More than anything in my opinion is that they want to set an example of obedience, because they did not do severe confinement before.
Estel·la: Ok, I understand. I was surprised, I did not expect this change so suddenly.
Cristina: Yes, now it looks like it is going up in Europe.
Anéeka: Yes. Only if one asks if they will continue with Scandinavia, because the "measures" there have not been very severe either.
Estel·la: A question concerning Trump too, is Trump admitting that there is no virus, with the statements that the numbers increase due to the continuity of doing the tests? "If we stop testing right now, we'd have very few cases, if any."
Anéeka: Yes, although it also makes me desperate that he doesn't say things clearly. Is that if they are fighting the Cabal, as they say right? One of your strongest weapons would be to inform the public of what is really happening. Logical right? But they don't. Supposedly because the President of the United States would become "conspiratorial" and that would reflect negatively on the elections. I'm not convinced by that argument. I have a bad feeling about everything. I just see how they do very, very little and let everything progress as if they were the same.
Estel·la: Yes, I also see that he speaks in code, but then few people or only followers understand, and it doesn't quite work.
Cristina: Of course, I understand, is Trump or the Alliance working with some benevolent race?
Anéeka: He talks with the Federation, if that is "Benevolent Race" like Putin too. I really hope I'm wrong, but I don't have much hope that Trump will do something good by ending the election. I have seen in the USA that even many people want Trump to retire so that this circus ends. Contrary to what is being handled with him.
Estel·la: But, directly? Like with President Eisenhower?
Anéeka: Not face to face, with technology. But he is in contact, he and his team. Either his side or his faction of the Cabal, because he's not on top, he's just a puppet on that side of the Cabal. There is more above him. Of more power but they remain in the shadows. I don't even know who they are.
Estel·la: But with chat technology for example like us, or through meetings with holograms or things like that? Because I can't imagine him "without evidence."
Anéeka: The issue about the evidence is handled or controlled by the Federation, with its advanced AI servers, the issue of "no evidence" is only for the general human population. From the high Political or Military level, you do know who is who. I know they communicate by video conference, be it hologram or traditional.
Estel·la: Of course that's what I imagined, that it goes in layers, once you get to a certain position I didn't expect it to work the same way. Thanks, Aneeka. And with what races of the Federation?
Anéeka: Alfrateans, Arcturian Antareans, Andromedans, mainly.
Estel·la: Wow. All together plotting the steps to take?
Anéeka: It is above my level of being able to know what they do there. Who knows better is Yázhi. And what she says is not good, because basically the Federation will not do anything. And in the end the Federation are the ones who control everything that happens on Earth, the good and the bad. They are the controllers of Earth.
Estel·la: I understand Aneeka, thank you.

Cristina: Thank you Aneeka. And is John F. Kennedy Jr. alive?
Anéeka: According to my best intelligence and according to my contacts, yes he is alive. I have made an analysis between the man, whose name escapes me, as a hippie they say that he is JFK Jr. And I see that 90% it is him. Also, his wife.
But I can't be 100% sure. I don't have the data and lately I'm very skeptical of all those arrests and all-in favor of humans, because I don't see anything more than just talk. Today I received information that says that Benghazi exploded among other crucial things to Biden, and that this would end his political career, but I still do not believe it, nor do I see evidence of it.
Estel·la: I don't believe that this man is up for elections, knowing how satanic and pedophile he is... it gives me chills.
Is it this man, Aneeka?
Anéeka: Thank you. Yes, that's him exactly, it does not look the same. But he has features that would point out that it is him.
Estel·la: So you believe 90% that it is him, and do you think he would be waiting to act at some point?
Anéeka: I doubt he's waiting to act. I hope so, but I don't see him acting, again I hope I'm wrong. And his taking action does not necessarily mean that he is in favor of the people, but since his relative Robert Kennedy is working against vaccines, that sounds like a good sign.
Estel·la: Right, it could be that he simply stepped out so they wouldn't take him out of the way and he could live quietly...
Anéeka: Yes exactly, and that he never appears. Therefore, it does not mean anything.
Cristina: And what is happening in China? Why is it said that there is no coronavirus or outbreaks there? What do they mean by that? Now they also talk that they are preparing for a war.
Anéeka: I have contradictory information about China, because in addition to that, what I am also receiving are reports of re-outbreaks and new viruses that come out of there to threaten the world. In my opinion, China is so under control that they are no longer interested in putting those kinds of restrictions since people obey and that's it, but the restrictions are to "educate" or condition the world to be obedient, China is already dominate it.
Cristina: And why are they talking about war? Or that is also a maneuver of everything that is happening.
Anéeka: They're talking about war all the time. I don't see a difference. They also control both sides from above. There is nothing in concrete, I see it as more distraction for the population. So, they don't see what the vaccines will do to them. They do not need wars as their suffering and world changes are taking place in a more efficient but less cruel way.
Estel·la: And I suppose that what they broadcast here in Europe will be for some purpose too, and then they will attack again with the fear suddenly or something...
Anéeka: Sure.
Cristina: I understand Aneeka, thank you very much.
